Are Your Sales What They Should

Several of our agents are under the impression that when they have ordered a dozen or so boxes of medicine, distributed a few books, and canvassed a day or so, that they should be overrun with orders, and when they find such is not the case they give the agency up as no good and make no further effort for business. Now these are just the people we want to encourage. The territory they hold is as good as the average and the result is not the case they give the agency up as no good and make no further effort for business. Now these are just the people we want to encourage. They should comthe average, and the people they have for customers are as well-to-do and as quick to buy a good remedy as any others; yet their sales are poor and they do not know where the trouble is. They should compare the efforts they have made to sell medicine with those of our agents published in this department, and note the difference. The successful agent works, and richly merits the sales he makes. If he is wise he has a plan mapped out for each day, and adheres to it as much as possible. When he visits a place and fails to sell a box of "Our Native Herbs" he is never satisfied until he discovers the cause of his failure, and when it is found he is careful to avoid the same mistake again. It is a duty you owe yourself to make a success out of the agency, and you will not be able to find another business where the profits are so large in comparison with the amount of money invested. We want you to make up your mind to give the agency one good trial, and we know you will be so well pleased with the results you will devote enough of your time to it in future to make it a success. For several weeks we have been publishing experiences of some of our agents. You cannot do better than follow their example. They are all making money, and you can, too, if you will try. "OUR NATIVE HERBS" will bring you health, happiness, and a good living.

A MICHIGAN MAN'S SUCCESS.

The Alonzo O. Bliss Co.:

I herewith hand you order for six (6) dozen boxes of "OUR NATIVE HERBS" and three (3) dozen "Our Native Oil." Please ship by first express, as the demand for your matchless remedies is increasing daily, and I do not want to be without goods a single moment, as people come to my home for it daily. I want the exclusive control of Antrim County, according to your promise, so please refer all orders for medicine to me. Yesterday I worked four (4) hours in Central Cove and sold EIGHT BOXES in FOUR hours, which, in my opinion, is a very good showing for an agent who has only been at the business for one season. My expenses for the day were 75c, and my net profit for the four hours' work was \$3.25. I like the business and the people like the medicine. Every one who uses it gladly recommends it to his friends and acquaintances as a sure cure for the various diseases you recommend it for.

I have been running a small ad in my local paper with very gratifying results. After the first week my orders averaged three per day-and they are still coming. "OUR NATIVE HERBS" has made so many remarkable cures that the doctors are getting uneasy, and are doing all they can to injure my pusiness. Your matchless remedy has cured some cases in a few weeks at the cost of \$1 that some of our local "medicos" have been practicing on and making a living off of for years; so naturally they feel jealous and annoyed to find I have a remedy that will relieve at a nominal cost cases they could not cure, and from which they derived a handsome income for years. As soon as this order reaches me I am going to give my county a thorough canvass, not leaving out a single house, and at those I cannot sell medicine I will leave an "Almanac," requesting the people to write me when, if they should want medicine, before I called again. Just as soon as I finish my first round I will start out again, and will not stop work until I have placed a box in every house. Of course, I will continue to run my advertisement in the paper, as it helps me wonderfully, not only in mail orders, but those that see it are prepared for my visit and greet me cordially.

I have a nice team I use when canvassing, keep my horse in good order, and the whole outfit has a neat and business-like appearance. I find a few pointed and truthful remarks about "Our Native Herbs," and what it will do are about all needed to make sales. I always use an argument something like the following: "I am offering you a box of 'Our Native Herbs.' the Blood Purifier, Kidney and Liver Regulator, that is doing such good work among your neighbors. After reading over the ingredients you will see they are all remedies whose medical properties have been recognized from time immemorial. It is the peculiar proportion that gives this remedy curative properties possessed by no other. In all Blood, Stomach, Liver, and Kidney troubles it is especially effective. (Here I mention two or three persons in his vicinity who have been cured.) This medicine is very cheap, 200 days' treatment only costs \$1, and we guarantee to cure you or will refund your money. A few doses of 'Our Native Herbs' taken when you feel bilious or out of sorts will save much suffering and heavy doctor's bills.

After listening to an argument of this character the person will, nine times out of ten, buy a box. If he should not, I thank him for his time, leave a book, and request the privilege of calling on my next round, to see if he has not changed his mind. I keep a list of the people I sell to and have a nice lot of testimonials, which help me greatly in my work. I am going to have you prepare some Special Health Reports, with testimonials from my customers printed on the backs. These reports will be of great assistance. When I first started out there was a fellow near me who had the agency for a medicine that looked like "Our Native Herbs." At first he did fairly well, as a great many thought they were getting the original and genuine. But after the first two weeks the people complained that the medicine made them sick, and all of them stopped using it and sent to me for "Our Native Herbs" to cure them. To both agents and customers I would say: BEWARE OF IMITATIONS! Buy Bliss', which is the BEST.

Yours truly,

H. H. CHAMBERLIN.

CHATS WITH OUR AGENTS.

You can all see from Mr. Chamberlin's letter that he is an enthusiastic worker in behalf of "Our Native Herbs." He has only been with us a short while, but he has built up a trade that any of the old agents might well be proud of. His business is the result of intelligent and steady canvassing, which has been greatly helped by newspaper advertising. Owing to the energy he has displayed in his work we have assigned him an entire county, and if he carries out the plan he has laid down (as we feel certain he will) his trade will double itself in a short while. He is setting you a good example, and we trust all of those who have not already done as he is doing will start out at once

with the determination to show an increase of at least 50 per cent. in their business this week. You can do this readily if you will only exert yourself a little and canvass. We send with each order a liberal supply of literature, and it is your duty to see that every piece of it is placed where it will do the most good. The Metal Signs we send are good. Have them tacked in safe and conspicuous places, so they will keep "Our Native Herbs" before the people. You should impress upon your customers the importance of continuing the use of "OUR NATIVE HERBS" until every germ of disease is driven from the system, and not to stop using the medicine as soon as a slight improvement is noticed, but to keep on until a permanent cure is effected, which will be the result if the directions are followed. Hundreds of our agents are advertising in their local papers with very good results. We hope in the near future to have every one of you doing so. You can give this plan a trial at small cost, and if you want any information on the subject, write us, and we will gladly give you all the assistance in our power. This paper is sent you at our expense. It is our wish that you read our department, and if you have any suggestions, to send them to us for publication.

Protection of the Honor of the Mother and Daughters of Georgia Not Incompatible with a Return to Reason and the Re-enthronement of the Law-He Asks the Co-operation of All Good Men, White and Black, in Restoring Order.

Atlanta, Ga., July 31.-Gov. Candler tonight issued an appeal to the people of Georgia to join hands and put an end to mob violence in the State. The Governor believes that the only way to restore a condition of peace and tranquillity and to bring an end to the lawlessness that has been manifested in different narts of the State is for the people to uphold the courts and aid them in bringing to justice all criminals and by the strong force of a virile public sentiment bring pun-ishment to the lawbreakers of all kinds. The Governor tells of the reproach heaped upon the State by the repeated out-

breaks, and says: "The purity of the fair mothers and daughters of Georgia must and shall be preserved, and at the same time the lives and liberties of all of the law-abiding negroes in Georgia must and shall be protected. Arson and burglary and assassination and robbery and rape must stop, and at the same time lynch law must stop. The good of both races and the fair name of the State demand this.

"The ordinary processes of law are am-ply sufficient to punish all crimes. Our Judges are pure and incorruptible. Our juries are composed of our most intelligent, upright men, who seldom make mis-

P ssions of the Mob.

"The mob often makes mistakes and the innocent are made to suffer with the guilty. It never knows where to stop, but after punishing the guilty, drunk with the blood of one victim, it thirsts for the blood of another, and often sacrifices on the altar of vengeance those who are gui'tless of any crime.

"We must away with the mob. We must re-enthrone the law. We must restore the altar or reason and tear down the altar that passion has erected. do this in the interest of the white men of Georgia and in the interest of the negroes of Georgia, and for the fair name of Georgia, and to protect the virtue of the women of Georgia.

the women of Georgia.

"Lynch law does not stop arson, or murder, or robbery, or rape. This requires the strong power of the statute law, sustained by a healthy, vigorous public sentiment. "I would appeal," continues Gov. Cand-ler, "to all officers of the State, civil and

military, urging them to remember that the dignity and the fair name of Georgia are in their keeping. I would appeal to them to remember that they are the guardians of the peace and happiness of the people of the State. It is their duty the people of the State. It is their duty to apprehend and bring to justice all who violate the law, whether it be the negro who commits rape or the white man who kills him for his crime. The Grand Juries must realize that it is as much their duty to ferret out and return true, tills against members of the mob who lyzely a murderer as it is to return a true bill against the murderer himself.

Carrying of Incense and Lights Prejudicial to the Peace of he Churc

Lenden, July 31.-The Archbishop of Canterbury, the Most Rev. Frederick Temple, D. D. rendered a decision to-day in the ritual cases which he and the Arch-bishop of York, the Most Rev William bishop of York, the Most Rev William Dairympie Maclagan, D. D., heard in May. The Archbishops declare that while far from saying the use of incense and the carrying of lights in procession are unsuitable or undesirable accompaniments of divine worship, they are obliged, in secondance with the prayer-book, to come to the conclusion that the adjuncts are neither enjoined nor permitted by the law of the Church of England. Therefore, the Archbishops add, though they may be used to sweeten a church or for purely lighting purposes, they urge all the clergy, for the sake of the peace of the church, by discontinue their use as part of the gervices.
